

Reporting with the WinGPC ReportDesigner (P/N 899-0030)

Description

This software training course is designed for present users of the WinGPC ReportDesigner and for future clients planning to implement this versatile tool. It offers lectures and a practical session given by an experienced polymer chemist with extensive knowledge about chromatography, WinGPC and the ReportDesigner.

After successful participation each attendee should be able to create layouts (1 or more pages)

- with the company's choice of content, layout and style
- with meaningful result tables, figures and on-line calculated quality criteria
- with the optimum output format to support the company's workflow requirements.

How does it work?

- After receiving your registration, we will send you the registration confirmation.
- We will contact you to get to know you and to identify your course goals. We would be happy to help you check the suitability of your PC / laptop.
- Approx. one week before the course, you will receive a package from PSS with the printed course documents.
- One day before the event you will receive an e-mail with the access link.
- The training itself is interactive, you have time and opportunity to ask questions during the presentations and practical sessions. Please make sure that you have a microphone so that you can talk to us.
- You will receive your certificate of attendance one day after the training.

Conditions of participation

To participate you need a PC/laptop with keyboard and mouse, internet access and audio functions. A headset is recommended. We recommend a quiet room for attendance. Attendance from home office is possible.

The course is conducted using a software training tool.

[Test the suitability of your system here](#)

A separate, additional access to a WinGPC installation for the practical sessions is provided.

PSS TeamViewer licenses are used here.
